

How to set your Chrome browser to a language translate mode; watch the video is in English.

<https://www.youtube.com/watch?v=RTefAcZoSNM>

Step 1.

In this video, we're going to learn about the built-in translation feature inside of Google Chrome whenever you visit a website. Here's how you do it; it is easy to set up. You will open your Chrome browser settings.

Step 2.

Go up to the right-hand corner of the page with the three dots and click on the dots.

Step 3.

Now click settings.

Step 4.

When the window opens, scroll down to the bottom and click Advanced

Step 5.

Now scroll down to the languages section, then expand the language window by clicking 

Step 6

You're going to choose to add languages. When you add this language, this is going to be what your Chrome browser will translate into.

Step 7

I'm going to choose Spanish by click in the box and clicking ADD at the bottom right.

Step 8.

This is what your screen will look like

Step 9.

Exit the setting by clicking the "X" in the top left corner.

Step 10.

Now open a new Chrome screen

Step 11

Let's go to a website about dogs. This is all in English, now I would like to translate this to Spanish. Click in a clear areas over on the side by the star "★".

Step 12.

Please right click, Choose translate to English (it looks wrong but it is right) but that's the one you do choose

Step 13.

You may get a pop up that looks like this; click options;

Step 14. Change the Translation Language to Spanish; then click Translate.

Or it might look like the below; click the three dots ⋮ click choose another language

Scroll down to Spanish

## Step 15

If you click on a different webpage it will be in English but you can click in a clear area on the page and right click you will get this pop up window; now you can click translate to español

This is a very handy translate feature to use when you're going from web page to web page for your surfing the internet.
