COVID Employee Protocols for the 2022-2023 School Year

If an employee is out for a COVID related reason, the employee must use their own sick or personal leave.

As a reminder of CDC guidelines, teachers and staff who test positive for COVID-19 should isolate for at least 5 days. Day 0 is the day of the positive viral test (based on the date of testing) and day 1 is the first full day after the specimen was collected for the positive test.

- An employee can end isolation after 5 full days if they are fever-free for 24 hours without the use of fever-reducing medication and other symptoms have improved (loss of taste and smell may persist for weeks or months after recovery and need not delay the end of isolation).
- It is highly recommended that an employee should continue to wear a well-fitting mask around others at home and in public for 5 additional days (day 6 through day 10) after the end of their 5-day isolation period. If they are unable to wear a mask when around others, they should continue to isolate for 10 days.
